

Centennial School Song

Centennial School is a special place
where every face is a special face
and the colors of the rainbow
fill this space each day.

Some take a bus.
Some ride their bike.
Some drive a car.
Some of us hike,
but we're all the same when we step inside,
because what's inside us is all the same.

Centennial School is a place to grow
and when you leave may you always know
that you're welcome back
years down the road from now.

Some use Braille.
Some of us sign.
Some use Bliss.
We communicate fine
and we're all the same when we step inside
because what's inside us is all the same.

Centennial School is a special place
where every face is a special face
and the colors of the rainbow
fill this space each day.
